Dear Sir/ Madam,

It gives us immense pleasure to cordially invite and welcome you to participate and share your experiences in two days International Symposium on "Environmental, Educational & Biological Research for Human Welfare" on March 25 - 26 March, 2018.

About the Symposium

This Symposium will serve as a platform for international exchange of ideas, collaborations and cooperation among academicians, educators, researchers and students in the universities, colleges, institutes as well as research & development. Prospective authors are invited to submit abstract or full papers. It is anticipated that a broad range of research and applied topics will be covered during this event. The present symposium is aimed to promote discussion and an exchange of experiences and innovative ideas related to educational, environmental and health research involved in various disciplines particularly focusing on human welfare.

About the Society

The SEDER is a non-profit organization devoted to the promotion of innovative ideas associated with the development of Educational, Environmental and Health Researches through sharing of knowledge and international collaboration. Each year the Society organizes and hosts the Symposium and delegates from all over the world's come and share their knowledge for the development of mankind.

THE THEME OF THE SYMPOSIUM

SEDER welcomes all Respected delegates from different segments of science and education which contribute for betterment of society. Following are the sub-themes of the conference:

1. Biological research in perspective of social & economic status
2. Education in perspective of social justice
3. Biotechnology in human welfare
4. Climate change, food securities and health
5. Rural environmental issues
6. Environmental management
7. Development of natural product as potent drugs
8. Awareness issues in disease prevention (like Diabetes, HIV etc.)
9. Scope of Ayurveda in biomedical researches
10. Physical education in relation to public health
11. Use of microbes in clinical studies
12. Management of environmental issues
